

Public services are a way for creating job

This development is estimated with the number of direct creating job in the sector of the solidarity : for example, services for elderly and disable persons, and young children in institution or at private home.

National and local tools to develop employment in persons assistant and social policies in the different states of European Union are a way to innovate and exchange for build new offer of services : systems of childcare, new structure part-time job, new services, new needs of families (elderly and disabled persons...) A diversify offer of services is develop...

An other part of the project is develop the services for young children because they influence the families activities (particularly to the development of women activities)

Local job can be also created by development of services.

The aims of the workshop is develop exchange to built new services for creating job

Tow workshop :

The aims of the program INTERREG IVC

For 2007-2013, the interregional cooperation comes from INTERREG IVC cooperation programme and the European PIC EQUAL

Global objective

- To improve, with the interregional cooperation, efficiency of regional development policies in the sector of innovation, knowledge economy, environment and risk prevention'
- To contribute at the modernisation and increased competitiveness of Europe

Operational objective

To share and transfer knowledge and good practice.

To associate regions less experienced with region who have more experience on a special topic

Conforte that good practice knew by the interregional project of cooperation are easy to get to other local or regional partners, and be transferable in national policy

The main priorities the INTERREG IVC program in link with the topic of assistance persons

Two main priorities are targeted: 'Innovation and Knowledge economy' and 'Environment and Risk prevention'

that helps regions of Europe work together to share their knowledge and experience

Priority 1: Innovation and the knowledge economy

Develop local project for creating employment, human capital and education.

Develop local initiatives to improve employment

Improve the participation of people who are discriminate for find job (women, more old worker...)

Improve adaptability of salaried worker and enterprise

Eligible Spending
